

Gene,

Thanks to you and your staff for a pleasant building experience with my new house. As you know this is the first house I have had built so I was unsure of what to expect. Paula, Ed, Jenny, yourself, and the contractors were professional and courteous throughout the build process.

You may use me as a reference at your desire; I will give you and your group a high rating.

Thanks for the beautiful plant, it was thoughtful and appreciated!

Respectfully

Jack Culbertson
