

G.M Homes

Gene Miller

Mr. Miller, I and my wife would like to thank you and your staff for the remodel job on our kitchen. You not only meet our expectations but exceeded it .Your attention to detail and quality is second to none. Being in the tool and die business I have a high expectation to quality and detail and making the customer happy and feel important, you and Ed hit the mark every time.

Although your price was not the lowest, I and Lori now know why we chose G.M Holmes for our project. I appreciate that when we called with questions or concerns we never felt uncomfortable bringing them to your attention, and how fast you return calls or answered questions.

I want you also know that Ed was great to work with, my wife looked forward to talking to him because he always was positive and kept her updated on the status of our project. Ed also kept things picked up and clean at all times, I feel he treated our house as if were his.

Best wishes to you and your staff this Holiday season. We look forward to using our new kitchen.

Sincerely Jim and Lori Allen

*Good job team.
Gene*
