

November, 2013

Gene and Jennifer,

*From all the pictures and video, our house look great!! I can't wait to see it in person!
You guys and your whole staff have been tremendous!*

I was a little skeptical about this whole process of designing, building, coordinating and making this house the way Lisa and I wanted it, but you guys pulled it off, and from what we have seen so far, we love it! We basically went from our thoughts to paper to an amazing house, over the internet, phone calls, Facetime :) and text messages!

Thank you for your hard work and dedication, I know we will have many great years in that house!

Not sure if we will have a boat this summer, but you guys will have to bring your staff up for a BBQ regardless!

Thanks again, and will talk to you soon.

Mark

Homeowner from California who built new home in lower Michigan
